BULBS

For Fall Planting

They are not only certain to bloom abundantly, but are the easiest cared for of all flowers. The bulbs can be potted any time from September to the middle of December, though the earlier the better. For the proper depth of planting and distance apart, follow the chart shown above. After planting, water well and place the pots or boxes in a cool, dark cellar, or similar place for four or five weeks. This treatment is to develop a strong growth of roots, which is very necessary to secure vigorous flower stalks, during this period. If the soil shows signs of dryness, it should be watered. When the shoots begin to show signs of life, bring into a light, sunny window, water frequently and give plenty of fresh air. Only moderate heat is required, avoid a high and close temperature.

Please Bear in Mind

We Deliver Free. Postage paid to any postoffice in the United States at prices quoted, except where offered by Express, then the purchaser is to pay charges.

Our Terms. Are strictly cash with the order—WE DO NOT SEND C. O. D., as the cost of collecting return charges is quite an unnecessary item of expense, and the prices being given we can conceive of no necessity to warrant being so sent.

How to Send Money. Money can be sent safely either by P. O. order, bank draft, express order or registered letter. If your order amounts to $1.00 or more, it is best to send by one of the above methods. If local checks are used they must be certified. We receive postage stamps the same as Cash, Canadian included.

We Guarantee All bulbs ordered of us shall reach the purchaser safely and in good condition. If the package is lost or any of its contents injured on our way we will send again.

Time of Shipment. Not all Fall Bulbs are ready at the same time. The majority are ready to ship by the second week in September; a few sorts, which are noted in Catalogue, do not mature until October and November. Unless otherwise instructed we will send the early bulbs as soon as ready, and the late maturing sorts when in good condition to ship.

Substitution. Sometimes occurs that our stock of some named varieties of Hyacinths or other bulbs become exhausted before the close of the season, in which case we shall take the liberty of substituting others of the same color and price being equally as good, if not superior to the ones ordered. Should any of our customers object to this course they will state so in their orders.

HYACINTHS

While one of the oldest garden favorites, it is, nevertheless, a most beautiful and interesting plant, that succeeds well either in the house or garden and can be grown in water, sand, moss or any light, well-drained soil, and is sure to give satisfaction for the amount of care and labor bestowed on its cultivation. It has no rivalry among winter-blooming bulbs in variety of color, beauty and fragrance and the flowers are suitable for all decorations.

HYACINTHS IN GLASSES

Grown in glasses Hyacinths are very interesting as well as ornamental. Fill the glasses with water and place the bulb so that the water will just touch the base. Place same in a dark, cool place. As the water evaporates a little more should be added.

A small piece of charcoal placed in the water will help greatly to keep it pure. After the roots have attained a good growth bring out to the light.

NOTE:—Each and dozen prices include postage.

HYACINTHES—Cont’d

EARLY ROMAN HYACINTHS

The flowers, while smaller than those of the Dutch Hyacinth, yet are produced in much greater abundance, each bulb bearing several very graceful flower spikes. The delicious perfume, earliness and profusion of bloom have made Roman Hyacinths exceedingly popular; they are so easily grown and so early that if potted in August and September they can be brought into flower in November and December, and a succession can be had in bloom throughout the winter. Pure white, Each, 6c, doz., 50c, 1.00, $5.00 postpaid.

FEATHERED HYACINTH

This very curious plant is well worthy of culture in pots as an odd and interesting flower; it is no trouble to grow. It, however, does best in the open ground, where it is entirely hardy and will become established. The flowers are borne in the form of feathery blossoms on graceful stems; color deep blue tinged with red. 3c each or 25c per doz., postpaid.

May’s Bulbs, Plants, and Shrubs are always the best

TULIPS

The people are appreciating the beauty of tulips more and more every year. There is so little trouble in bringing them to perfection, whether planted out or in pots, and so valuable that no garden or window sill should be without them. For gorgeous colors and brilliant effects planted in beds and borders the Tulip stands unrivaled. There are no bulbs which make such a rich display of blossoms with so little care and cultivation. As with most flowers, single varieties succeed better than double when forced.

NOTE:—Single and dozen prices include postage. The hundred rate is by express at purchaser’s expense.

Keizerkroon Tulip

MIXED SINGLE EARLY FLOWERING TULIPS
DOUBLE TULIPS

Double Tulips are especially desirable for what is called "Carpet Bedding," owing to their short growing habit and sharp, well-distinguished colors. White, red and yellow sorts, of about the same height, planted in lines of three or four rows of each color, form with their large, rose-like flowers, beds of surpassing beauty.

MIXED DOUBLE TULIPS

Early Flowering
First Quality, make up from Named Sorts, with proper proportions of bright colors. 25c per doz., $1.50 per 100.

MIXED DOUBLE TULIPS

Late Flowering
A fine mixture, valuable for flowering after earlier varieties, and for planting among shrubbery and in odd corners.
Price 25c per doz., $1.50 per 100.

BOUTON D'OR TULIP

Rich, buttery orange-yellow cup-shaped flowers. The anthers are black and make a striking contrast with the yellow when the flowers are expanded. Each 4c, doz. 35c, postpaid.

TULIP GESNERIANA

Tall growing and late blooming, with large, long leaves, and tall, erect flower stalks, which support great waxen blooms larger than teasels, of the most vivid, glossy, coral red, each flower showing a deep, blue black blotch at the base, that further enhances its beauty. They remain in bloom a long time. Clumps of this grand flower are particularly fine planted among evergreens or shrubbery. Each 5c, doz. 50c, postpaid.

SINGLE LATE OR SHOW TULIPS

FOR THE OPEN GROUND ONLY

It seems strange that Bizarre and Bybloom Tulips are not more commonly grown. Their large, cup-like blossoms, feathered and flaked as only a Tulip can be, are always admired more than any other. Byblooms have white light or violet grounds, flaked and feathered, rose, lilac, pink, purple, violet, scarlet, black and crimson. Bizarres have yellow grounds, flamed and blazed maroon, black, scarlet, bronze and brown. We offer a fine mixture of every imaginable color and marking.

BIZZARES Each 3c, per doz. 30c, postpaid. By express, 100, $2.00.

BYBLOOMS Each 3c, per doz. 30c, postpaid. By express, 100, $2.00.

DARWIN TULIPS (May Flowering)

These splendid May-flowering Tulips grow 20 to 24 inches high, with strong, stiff stems, and their flowers are massive, weather-resistant and very persistent. They are well adapted for every garden use. They embrace nearly all shades of white, lilac, rose, red and crimson, whilst a few new and very interesting types are colored mauve, heliotrope, maroon and black purple. Their centers are always clear and well defined, and in many cases a ring of white, gold or blue divides the basal from the petal coloring. Each 4e. doz. 40c, postpaid.

PARROT TULIPS

For the Open Ground Only

Very large flowers of singular and picturesque forms and brilliant colors, very beautiful and interesting. Their petals are curiously fringed or cut. They form extravagantly showy flower beds or borders.
Narcissus or Daffodils

No spring flower better deserves their growing popularity than these beautiful and fragrant flowers. Of easy culture; they are equally satisfactory for potting, for open beds and borders, bloom early, are very showy, and fragrant and quite hardy. They are receiving wider cultivation every year and have become great favorites with the florists and others for cut flowers during the winter months.

**Narcissus Poeticus, Pheasant’s Eye**

**Single Narcissus Cup-Shaped Flowers**

**Poeticus Ornatis**

Pure white, cup shaped, margined scarlet; very early, flowering about a month earlier than Poeticus; fine forcer.

Each 3c, doz. 25c Postpaid. 100 $1.00 by express

Stella. One of the first to bloom; flowers star shaped; pure white with yellow cups; large, wonderful free-blooming and one of the very best for general decoration or for cutting.

Each 3c, doz. 20c Postpaid. 100 $1.25 by express

**Types of May’s Giant Crocus**

**CROCUS**

This well known little flower is the earliest to bloom, appearing as soon as the snow is off the ground. They are suitable for all gardening purposes, for planting in beds, forming lines and borders, are quite hardy and increase from year to year, and will flower easily in the house with the same treatment as the hyacinth.

To secure a succession of blooms commence planting early in October, 6 or 8 bulbs in a pot (the named varieties are best for this purpose), using rich soil, and planting about an inch deep. They present the best appearance, however, when grown in masses in a bed.

NARCISSUS
SINGLE TRUMPET

Emperor  One of the finest in cultivation; entire flower of richest yellow, trumpet of immense size. Each 6c, doz. 60c.

Empress "White Winged Trumpet," A two colored variety of rare beauty. Perianth white, trumpet rich yellow. Each 6c, doz. 60c.

Trumpet Major Single Von Sion Flower large and almost uniform, deep golden. Highly prized as an early forcing sort and largely planted for outside bedding. Each 4c, doz. 40c, per 100 $2.25.

Princeps Very early. This is one of the most popular winter-flowering and forcing varieties grown. Flowers large, perianth sulphury; an immense rich yellow trumpet. Each 6c, doz. 40c, per 100 $2.25.

Golden Spur Large, spreading full, deep yellow perianth; trumpet golden yellow. A charming, richly perfumed flower and one of the very best of the Golden Trumpets. Each 6c, doz. 60c.

Horsfieldi A royal flower as to size and color, being very similar to Empress; perianth pure white; trumpet rich yellow. It comes into bloom early, and is one of the very finest for cutting. Each 5c, doz. 50c.

Bicolor Victoria Perianth creamy white, Trumpet rich yellow, delicately perfumed; excellent for pots. Each 6c, doz. 60c.

Maximus A grand deep yellow-golden flower. For cutting this variety is unexcelled. Each 7c, doz. 75c.

Sir Watkin Perianth butter yellow, crown deep golden, a popular variety and one of the best. Flowers often measure 5 inches across. Each 6c, doz. 50c.

Double Daffodils

No collection of Narcissus is complete without the double flowering sorts. While not as attractive as many of the single varieties, they possess a charm peculiarly their own. All perfectly hardy and are much in demand for cutting.

Double Von Sion "The true Double Yellow Daffodil"
Rich golden-yellow perianth and trumpet. This is the old favorite so highly prized in the old fashioned gardens. Each 5c, doz. 50c, 100 $3.00.

Orange Phoenix "Eggs and Bacon," Beautiful double white flowers with orange nectary. Each 4c, doz. 40c, per 100 $2.25.

Paper White Grandiflora

The TRUE PAPER WHITE GRANDIFLORA

Or Large Flowering Polyanthus Narcissus

Will grow in water and produce great masses of snow-white fragrant flowers a few weeks after planting. Splendid for house and church decorations. We advise all our friends to plant these lovely winter-blooming Narcissus. No other bulbs we know of will produce such an abundance of white, sweet-scented flowers with so little trouble. A dozen bulbs, set in a bowl of water and held in place by pebbles, will make a charming pot of flowers for house or church decoration, and can be had at any time desired. Each, 4c, doz., 40c, postpaid; by express, $2.75 per 100.

Purity Freesia

GRAND NEW FREESIA

PURITY

This grand new variety is a type of pure White-Freesia that surpasses in size floriferousness and purity of color all other Freesias. They should be planted early for best results. A half dozen bulbs planted in ordinary soil in a pot or box will produce a profusion of delicious-scented pure white flowers. They are of the easiest culture and are sure to grow and bloom. We offer one size only, first size bulbs. 5o ea., doz. 50c, 100 $3.50, postp'd

FREESIA (Refractaalba)

Bear peculiar clusters of white flowers, which last a long time and have a delightful fragrance. The bulbs force very easily and will come into bloom about Christmas time in an ordinary greenhouse. They also grow well and bloom freely in an ordinary sitting room if placed near the window and not kept too hot. Will stand a light freezing without injury. 3 for 10c, doz., 30c. 100, $1.75 postpaid.

THE TRUE CHINESE SACRED LILY

This is the variety grown by the Chinamen for decorating their Temples or Jose-Houses on their New Year's Day, which occurs in February. For the most part they are grown in water in fancy bowls, with just enough pebbles around them to keep them from toppling over. They can also be grown in pots in soil, sand or moss. We annually import from China a large quantity of the finest quality bulbs, and if planted on arrival (about October 1st) they will flower by Christmas and a succession of flowers can be had by making several plantings. The white and yellow flowers are borne in clusters, and are highly scented. Large Bulbs, each 15c, doz. $1.25, postpaid.

Nerine Sarniensis

Guernsey Lily

A beautiful and easily grown variety of Amaryllis. The lily-like blossoms are a brilliant crimson, and in sunlight appear as if sprinkled with gold dust; decidedly one of the best winter-flowering bulbs. Each 30c, doz. $3.00, postpaid.
LILIES
The True Bermuda Easter Lily
LILIUM HARRISII
GRANDEST WINTER FLOWER-ING PLANT IN CULTIVATION
IS OF THE EASIEST CULTURE,
BLOOMING IN WONDERFUL ABUNDANCE

This magnificent Lily is undoubtedly the best for winter forcing, as it comes quickly to bloom. The flowers are delightfully fragrant, pure waxy white, of great substance, and if cut as soon as they are open, or partially open, they can be kept for two weeks.

The remarkably short time required to bring them into flower, and the certainty to produce a profusion of bloom, and also the ease with which they can be made to flower at any desired period, such as Christmas, Easter and other special occasions, render them invaluable.

The quantity of bloom produced is marvelous: the average production of bulbs 3 to 4 inches in circumference, even when forced, is from 4 to 6 flowers, and of bulbs 7 to 9 inches, 8 to 12 flowers; and, if desired, a second crop of flowers, frequently equal to the first, can be secured the same season by drying the plants off after blooming for a time and then again starting them.

Blossoming plants in pots form typical Easter offerings and presents for decoration of the window, table, house or church. Nothing is more appropriately beautiful and highly appreciated.

Large bulbs, each, 15c, per doz. $1.25.
Mammoth bulbs, each, 30c, per doz. $3.00, postpaid.

LILIJUM CANDIDUM

This is the ever popular, fragrant, snow-white, hardy garden lily, which is also known as "Annunciation Lily," and "Madonna Lily." It grows 3 to 4 feet high, and blooms in the open ground in June. When grown in bold masses or in rows, these lilies are especially effective, the brilliancy of their snow-white flowers against surrounding greenery of shrubs, grass and trees is very telling. This lily dislikes being coddled, thriving best when it can remain undisturbed for years in good garden soil. Each, 20c, doz. $1.75, postpaid.

Lilium Longiflorum

Very-like Lilium Harrisii, and preferred by some to that variety. It does not come into bloom so early, but the flowers are of better substance and extensively used by florists for cut flowers. When grown in the open ground, it blooms in June and July. Can be planted in spring, if received too late in fall. Each, 15c, doz., $1.60, postpaid.

LILIJUM GIGANTEUM

A splendid species of gigantic growth, color, creamery white, with a purple throat. Large bulbs, each, 20c, doz., $2.00, postpaid.

Lilium Pardalinum

(Leopard Lily.) An elegant and very beautiful Lily from California, rich scarlet and yellow flowers, spotted with purple-brown. Also entirely hardy in open ground. It is one of the lilies you want. Each, 15c, doz., $1.50

Lilium Superbum

(Turk's Cap Lily.) One of our native species. It will produce upwards of 50 beautiful orange, tipped red, spotted flowers in a pyramid cluster, 3 to 5 ft. Blooms in July. Each, 15c doz., $1.50

Lilium Tenuifolium

A miniature Lily, having slender stems, 18 inches high, bearing 12 to 30 fiery-scarlet flowers. Easily grown in pots or a warm, dry border; early. Each, 15c, doz., $1.50

Lilium Tigrinum Splendens

(Improved Tiger Lily.) The grandest of the Tigers, black polished stem, sometimes 6 feet tall. Large pyramids of flowers, orange red, spotted with black, 3 to 5 feet. Blooms in August. Each, 15c, doz., $1.25

Lilium Tigrinum Flora Plena

(Double Tiger Lily.) Growing from 4 to 6 feet high, bearing an immense number of double bright orange red flowers, spotted with black. Blooms in August. Each, 15c, doz., $1.25

Lilium Umbellatum

One of the very best classes of the hardy garden Lilies; strong sturdy habit, growing from 2 to 3 feet high, having large showy flowers held upright and in clusters at the summit. They are an easy culture, thriving under ordinary garden conditions, flowering in June and July. The colors range through all shades of reds from rose to blackish crimson, yellow, buff, apricot, orange, etc. Each, 15c, doz., $1.25

Lilium Wallacei

Flower rich vermilion orange, spotted with raised maroon dots, autumn-flowering, thrifty grower. Each, 15c, doz., $1.25

ALL LILIES POSTPAID AT EACH AND DOZEN PRICES.

NOTE: In fall planting, or when done flowering in the house, these lilies should be set four to five inches deep, in the open ground, where they can remain, as they are entirely hardy; if planted deep and given a light covering of leaves or garden litter before hard freezing.

Sauromatum Guttatum

Monarch of the East
The great FLORAL CURIOSITY

The magnificent flowers of this remarkable plant, as shown in the illustration, actually comes out of the dry bulb, without its being placed in soil or water. The only treatment it requires is to simply place the large, flat, round bulb on a table or shelf in a warm room and very soon it begins to show a head, and within two or three weeks a Most Curiously Formed Flower

16 to 20 inches long develops, of a red-brown color tipped with red and yellow, while the inner part of the flower are equally as brilliant, entirely different from any other flower known, thriving entirely upon the nourishment contained within the bulb. After flowering, the bulb should be placed in the open ground, where it throws up elegant dark green umbrella-shaped foliage on a stout stalk, spotted with a granite-like color, and sometimes reaches a height of three feet, which itself forms a fine ornamental subject in the garden, particularly when planted in May or June in a moist or sheltered place. In the autumn the leaf fades, when water should be lessened, and as soon as it has died off, the bulb should be lifted out of the soil, cleaned up, and placed in a dry condition in a warm room, when the previous year's display may be repeated.

BRAZILIAN MELON FRUIT

As an ornamental plant it has few equals, its splendid bushy habit, healthy growth and charming foliage giving it the preference over many of the weaker and more delicate class. It also furnishes a most desirable egg-shaped, yellowish-orange colored fruit, which hangs pendent in clusters just below the beautiful foliage. This fruit is of the most delightful flavor, having a slightly sub-acid taste, entirely different from any other fruit we are acquainted with. For eating out of the hand, selicing or making into preserves, it is simply delicious, and its lovely appearance in a dish on a table can only be equalled by the finest tropical fruits. Strong plants. Each, 25¢, postpaid.

Strawberry

Another luscious tropical fruit and charming house plant, rivaling the famous Otaheite Orange in beauty. It is a nice, clean grower, with thick, glossy green leaves, and like the orange, it bears both flowers and fruit at the same time. The flowers are pure white and delightfully fragrant. The fruit is large, nearly the size of a walnut, and of a beautiful reddish color; the flavor is delicious, sweet and spicy, and yet rich and delicate. It is very rare and interesting. The plant begins to bloom and bear fruit while quite small. Each, 25¢, postpaid.

American Wonder Lemon

Very fine and valuable fruit for house culture. The leaves are of a deep glossy green like the Otaheite Orange, are easily kept clean and bright, rendering the plant neat and attractive at all times. In addition to this, its waxy white, fragrant blossoms, produced in clusters, followed by large showy fruit, make this plant at all times beautiful as well as useful. The fruit is very large, of fine flavor, and superior to the ordinary lemons of commerce in every particular. You will make no mistake in ordering this most beautiful plant, as it is valuable alike as an ornamental plant or a fruit producing plant.

We have grown and sold this valuable plant for several years and have never received a single complaint from a customer who purchased it. It is beyond doubt, one of the very finest plants for house culture ever introduced. Each, 25¢, postpaid.
MINNEHAHA ROSE

A grand and magnificent hardy hybrid Ever-blooming Rose of exquisite form, rich color and delicious fragrance. The flowers are very large and double, of a deep rich rose color on delicate cream ground, and have the perfume of the well-known Mariscal Niel. It is a quick and bushy grower, and a continuous bloomer, suitable for either house or garden culture. Its beauty attracts attention everywhere, and is, without doubt, one of the best of all the late introductions.

PRICES: MAIL SIZE.

OUR NURSERY DEPARTMENT

"Most Northern in America"

HARDY, IRONCLAD, PRODUCTIVE FRUITS, ORNAMENTAL TREES, SHRUBS, CLIMBING VINES, ROSES, ETC.

Our nurseries, situated 15 miles east of St. Paul, are the most northern in America, and admirably located in a pleasant, fertile valley, an ideal spot for growing nursery stock. The soil is a rich, deep, dry black loam, which by careful and systematic cultivation has been brought to the highest state of fertility and productivity.

The old-time theory, that fruit cannot be grown in the Northwest, has been thoroughly exploded, and each year more and more is being produced in this section. The varieties we grow are hardy here, and being thoroughly acclimated are much more suitable for this section than trees grown further south. Our soil and climate especially suited to growing hardy fruits, shrubs, etc., giving them that toughness of fibre and vitality of root, which enables them to withstand with equal vigor the blazing sun of the South, the dry, scorching winds of the prairie and the severe freezing of the North.

Advantages of Fall Delivery

Nursery Stock is completely dormant in the fall, and therefore can be easily and safely handled, while in the spring the weather comes off warm so early as to start the buds seriously before the customer can receive and plant. Even if the customer is not able to plant until spring, or the climate is too cold, it is wise to have the stock delivered in the fall, so that he can trench it in carefully, and seize the earliest moment in the spring to set it out, instead of losing valuable time in the spring waiting for the overworked nurserymen and railroads to get the stock around.

Nursery stock planted in the fall gets well established in its new position and so gets an early start, and makes a large growth the first season, while stock planted in the spring loses, considerable valuable time in getting established in its new quarters.

Fruit is produced the first summer when Grape Vines, Currants, Raspberries, Blackberries, Gooseberries, etc., are planted in the fall.

Rose Bushes and Shrubs set out in the fall bloom profusely the first summer.

BIRCH, CUT LEAF. This is one of the most beautiful and desirable trees for the lawn ever introduced. It makes a rapid growth and is perfectly hardy in all sections of the country.

Price, 4 to 6 feet, each, 25c, doz., $1.50; 6 to 8 feet, each, 50c, doz., $7.50; 8 to 10 feet, each, $1.00, doz., $10.00; 7 to 8 feet, each, $1.25, doz., $12.50.

ELM, CAMPREDOWN. A very graceful tree for lawn planting or covering arbors. The foliage is large, luxuriant, dark green, and the tree has the umbrella form so desirable.

Price, 4 to 6 feet, each, 25c, doz., $3.50; 6 to 8 feet, each, 50c, doz., $6.00.

MOUNTAIN ASH, WEEPING. A beautiful tree of hardy, vigorous growth, with straggling, pendent branches, and twisting in all directions, in a few years forming an immense head with branches resting on the ground, and producing a very showy effect.

Price, 6 to 7 feet, 1 year head, each, 75c, doz., $7.50.

MULBERRY. (Tea's Weeping Russian.) One of the most graceful and beautiful of the hardy, weeping tree and wholly unique, having a perfect umbrella-shaped head and slender willow branches.

The foliage is glossy green and with delicacy of form and motion it combines Russian beauty and vigor.

Price, 5 to 6 feet, 1 year head, each, 1 doz., $1.00; 6 to 8 feet, 2 year head, each, $1.25, doz., $12.00.

WILLOW, GOLDEN WEEPING. One of the showiest trees for winter effects. The bark is a golden color, becoming more intense as the leaves disappear and remaining so throughout the winter.

The branches are of graceful drooping habit.

Price, 4 to 6 feet, each, 25c, doz., $1.50; 6 to 8 feet, each, 50c, doz., $5.00; 8 to 10 feet, each, 60c, doz., $6.00.

Wonderful New Rose, Baby Rambler
Three Grand Carnations

The pick of the Carnation Family of the latest introduction, especially grown for winter flowering, strong, healthy plants, well-branched and set with flowering buds.

For customers who desire specimen plants, we have a limited supply of the following three varieties of Carnations which we can heartily recommend. These are large field grown plants which were grown especially for exhibition purposes at the Minnesota State Fair. In order to secure space for our spring planting, we are obliged to dispose of same at the very lowest figures quoted below. Plant enthusiasts who are fortunate enough to obtain one plant or the collection will agree with us that this is, undoubtedly, the biggest bargain in the history of their existence in the purchasing of plants of any sort. As our supply is limited and the demand great, we would suggest that you who are interested and desire to obtain large perfect specimens of the Carnation plant at a minor cost, should order at an early date as the first orders will receive the pick of the stock.

ENCHANTRESS: One of the most exquisite, delicate pinks of recent introduction. A very pleasing shade of light pink deepening toward the center. Born on long stiff stems; habit of plant strong and vigorous, a continuous bloomer. It is with pleasure that we call attention of all lovers of carnations to this variety.

LADY BOUNTIFUL: A most magnificent white. The flowers are a good size born on good stems and fragrance good.

BEACON: Brilliant scarlet flowers, very large, born on long stems, vigorous in habit, very free in bloom, considered by all the best scarlet ever introduced.

NOTICE: These plants are quoted by express at purchaser’s expense only. Owing to the exceptionally large size of same it is impossible to send by mail.

PRICE: 25c each; or the three for 65c—one of each, by express.

CHOICE FLOWER SEEDS
FOR FALL PLANTING

Many hardy sorts of flower seeds succeed best if sown in the open border during August, September and October. Some hardy annuals, when sown late in the fall, will start earlier in the spring, and flower sooner than if sown in spring. Such hardy sorts as Columbine, Foxglove, Hollyhock, Pink, Sweet William, etc., that do not bloom until the second season, unless started very early in spring, are particularly recommended for fall planting. They should be sown early enough to make pretty good plants before very cold weather. Then they will flower freely the next summer.

Our Flower Seeds are all procured from the best sources in Europe and America and are of the very highest quality.

PANSY SEEDS FOR AUTUMN SOWING

To have the earliest flowers, Pansy seeds should be sown in the fall, any time from August to November. They are quite hardy and all the winter protection they need is a little brush or straw to keep the snow from pressing too heavily upon them. If you want Pansy blooms early in the spring, TRY THIS PLAN.

MAY'S GEM

Most Beautiful known

For extraordinary size of the flowers and their endless varieties of color, combined with perfection of form and velvety texture, this strain is undoubtedly the finest mixture of pansies in the world, all selected separate colors from the best German, French, English and American growers of pansies, mixed and blended by ourselves. We offer this special blend to pansy lovers with the full assurance that it is the best money can buy.

Pkt., 100 seeds, 10e; Trade Pkt., 1,000 seeds, 75c; 1-8 oz., $1.00.

May's Gem Pansies
**WINTER WHEAT**

**BEARDED FIFE.** The Hardest, Most Prof-
ilie and Best Milling Wheat known. Ack-
nowledged by all winter wheat growers and the
different Experimental Stations as one of the best
varieties ever introduced. It is perfectly hardy,
withstands the extremes of our Northern climate,
and does not freeze out or winter kill. Yields
from 45 to 48 bushels per acre, straw is strong
and stiff and stands well, large heads, well filled,
kernels red with a very thin husk, hard and flinty.
Matures very early. Price, lb., 20c, postpaid.
By freight or express, pk., 60c, bu., $2.25

**Klondyke Winter Wheat**

A new variety that is creating quite a sen-
sation with a record of 45 bushels or more per
acre for three consecutive seasons. The heads are
not very large, which makes it possible for the straw
to stand up even under adverse conditions, but it
“stools” to a remarkable extent, and this ac-
counts for the heavy yield. The kernel is very
large, firm and white. Lb., 25c, postpaid.
By freight or express, pk., 75c, bu., $2.50

**“MINNESOTA NO. 2 RYE”**

Minnesota No. 2 Rye was originated from a
stock of Swedish rye obtained by the Minnesota
Experiment Station.

It is a hardy winter rye suitable for all sec-
sions of the state and has proven itself the se-
rior of all varieties grown at University Farm for
a number of years. The average yield on the
large fields at University Farm in 1908 was 41 1/2
bushels per acre, though one field averaged 48
bushels per acre. The average yield for the past
10 years has been 40.5 bushels per acre.

This rye should be sown about the 15th of Se-
ptember at the rate of from 1 1/2 to 2 bushels per
acre. It may be harvested about the 10th to the
20th of July. This variety stools enormously, so
that the yield per plant is very high, straw
grains straight and stiff, and is not subject to
lodging or rust. The plant stands from 4 to 4 1/2
feet tall, heads average 4 inches in length, being
about one third longer than those of the ordinary
rye. This rye is exceptionally large and
plump. Care should be used in seeding the rye
that a sufficient quantity be sown per acre. Lb.,
20c. By express or freight, pk., 60c, bu.,
$2.00

**WINTER RYE**

Is a valuable crop for either sowing, green fod-
er, straw or grain. It is best sown in drills at the
rate of 3 lbs. to the acre or broadcast
using 3 to 6 lbs. per acre. Price, lb., 25c, postpaid. By express or
freight, 10 lbs., $1.00, 100 lbs., $8.00

**MUSHROOM SPAWN**

One brick sufficient for about one square yard.

**PURE CULTURE SPAWN**

Made in the United States by improved methods, and is
much more reliable. In fact, it has attained such remark-
able success in the past rapidly
taking the place of English Spawn amongst the larger
growers. It is shipped under our guarantee to grow, if
our cultural instructions are fol-
lowed. Price per brick by mail,
postpaid, 40c. By express, not prepa-
red for shipment, 50c, 10 bricks,
$2.50, 25 bricks, $4.25.

Write for our booklet on MUSHROOM GROWING, it
will be sent free to customers on request.
May’s Special Mixtures of Clovers and Grasses
Suitable for all Soils

These Clover Grass Mixtures are selected with the greatest of care and composed of such varieties as are best adapted for different kinds of soil and various purposes. From our own experience, as well as from the experience gained by corresponding with the customers in every part of the country, we are enabled to select in these Clover Grass Mixtures not only the varieties that are suited to the soil, but also have them in the right proportion in each mixture. In every instance we mention the quantities which we recommend to be sown per acre and not only have these proven to be sufficient in our own experiments carried on during several years, but they have proven to be equally successful and sufficient with our patrons.

NOTICE: It is difficult to overestimate the importance to the farmer of the good selection and proper mixture of clover and grass seeds for Permanent Pastures or for Hay. The above mixtures are correct. We can make up lower priced mixtures if desired, but we advise don’t let the price of a few cents stand in the way of your getting the Best.

Grass and Clover Mixture
For Hay and Permanent Pastures. No. 0

Our Star Brand mixture of grasses and clover yields a very heavy crop of the finest and most succulent hay early in the season, and after same is cut, continuous and abundant pastureage until winter sets in. It will stand for years, and may be used either for pastureage exclusively, or hay and pastureage, and will give satisfactory results, both when sown on dry sandy soil, or on moist meadow lands. It is made up of native and foreign grasses and clover combined in proper proportions to insure the best results, from years of practical experience. We recommend using at least 25 lbs. of this mixture per acre. Price, 25 lbs. $3.50, 100 lbs. $13.50

Results are Satisfactory to the Farmer as well as Mr. Hog

May’s special mixture of Clover and Grasses are best by test. Suitable for all climes Standard for purity.
MAY'S HIGH GRADE
EXTRA CLEANED
Grass and Clover Seeds

OUR SPECIAL STAR BRAND means that the seed sold under that brand is the BEST
OBTAINABLE, both as respects purity and high germination. We use only the best grasses
in securing good seed, but make critical germination tests before any seeds are sent out.
By this method we know exactly as to the vitality of the seed we supply, and make sure
it is of strong growth, pure and clean, plump, heavy and well ripened, so as to insure a
good stand, and free from noxious and foreign seeds.

Market Changes The market value of Grass and Clover Seeds is constantly
changing; should you wish to purchase a quantity, or should
any item appear high, write for samples and special prices, or we will fill orders at lowest
market price, as it is our intention to meet the competition of all reliable firms.

At pound prices, we send by mail, postpaid. In larger quantities the prices are for
seed sent by express or freight (sick included) at purchaser's expense.
